

SMITANJALI NAYAK

Software Engineer | Full-Stack Web Developer | Prompt Engineer | Technical Content Creator

Email: nayaksmitanjali103@gmail.com | WhatsApp: +91 8658003113 | LinkedIn: [linkedin.com/in/smitanjali-nayak-5584a3349](https://www.linkedin.com/in/smitanjali-nayak-5584a3349) | GitHub: github.com/smita-2007 | Instagram: [instagram.com/smitanjali_07_nayak](https://www.instagram.com/smitanjali_07_nayak)

PROFESSIONAL SUMMARY

Software engineering student and full-stack web developer with hands-on exposure across MERN/Next.js development, AI prompt engineering, technical writing, web content operations, freelance collaboration, and open-source contribution. Strong foundation in frontend engineering, backend APIs, databases, documentation, and AI-assisted productivity workflows. Available for internships, freelance development, technical content, prompt engineering, and collaborative web product work.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript ES6+, React.js, Next.js, Angular, responsive UI development

Backend: Node.js, Express.js, REST APIs, backend logic, server-side application structure

Databases: MongoDB, MySQL, database-driven architecture, data consistency

Programming Languages: C, Java, Python, JavaScript

Tools and Workflow: Git, GitHub, MERN Stack, open-source collaboration, freelancing, version control

AI and Content: Prompt engineering, AI workflows, technical writing, documentation, content strategy

PROFESSIONAL EXPERIENCE

Web Content Uploading Intern | GAOTek Inc. | Remote Internship

- Managed digital assets, web content deployment, structural formatting, and content upload workflows.
- Supported frontend data consistency by checking formatting accuracy, page structure, and content presentation.
- Handled high-volume web content operations with attention to detail, quality, and publishing standards.

Prompt Engineer | FileMakr | AI Product Workflow

- Designed, tested, and optimized structured prompts for generative AI models and product development workflows.
- Created reusable prompt patterns, evaluation loops, and workflow instructions to improve response consistency.
- Worked with AI-assisted development processes to support productivity, documentation, and product ideation.

Content Writer | FileMakr | Technical Communication

- Created developer-focused documentation, blogs, and technical content explaining engineering concepts clearly.
- Translated complex ideas into structured, readable content for product users, developers, and collaborators.

Freelance Developer and Open-Source Collaborator | Independent | Client + Collaboration Work

- Builds custom web solutions and collaborates on experimental projects using modern web technologies.
- Contributes to open-source learning and development while growing practical full-stack engineering skills.

PROJECTS

Modern Animated Portfolio Website | Personal Project

- Built a modern portfolio interface using semantic HTML, CSS, JavaScript, animation, responsive sections, social links, and contact conversion paths.
- Added resume download, direct email/WhatsApp contact, and static-site-friendly inquiry form for collaboration opportunities.

Full-Stack Web Development Practice | MERN / Next.js Learning

- Works with React.js, Next.js, Node.js, Express.js, MongoDB, MySQL, REST APIs, and GitHub-based collaboration workflows.
- Focuses on scalable architecture, clean interfaces, modular backend logic, and database-driven product foundations.

EDUCATION

Bachelor of Technology | Gandhi Engineering College | 2024 - 2028

- Focus areas: software engineering, full-stack development, core engineering fundamentals, and applied technology learning.

Higher Secondary Education (+2) | Adyanta Higher Secondary School | 2022 - 2024

- Built academic discipline and science foundation for engineering studies.

Secondary School Certification | Ayodhya Bidyapitha, Bansaria | 2020 - 2022

- Built early academic foundation, problem-solving habits, and learning discipline.

AVAILABILITY

- Open to internships, freelance web development, prompt engineering, AI workflow projects, technical documentation, and open-source collaboration.

Portfolio and resume created for modern web presence and ATS-friendly screening.
